MEDICAL MICRONEEDLING TREATMENT PROTOCOL

amiea med

WRINKLES / FACIAL ANTI-AGING / COLLAGEN INDUCTION

TARGET

Fine lines, wrinkles, skin laxity and texture improvement.

TREATMENT PARAMETERS

RECOMMENDED NEEDLE DEPTH

0.25 - 0.5 mm

Forehead, periorbital and under-eye areas

Thin-skin zones

0.5 - 1.5 mm

Cheeks, perioral area and jawline

NUMBER OF SESSIONS

3 - 6

FREQUENCY

4 - 6 WEEKS

MAX 1.9 MM — Only in very thick skin areas if needed; deeper facial treatment risks unnecessary trauma.

CLINICAL GUIDANCE

TECHNIQUE TIPS

Use light pressure and focus on problem zones with additional passes.

ENHANCEMENTS

Apply hyaluronic acid or peptide serum post-needling. Optional PRP for advanced rejuvenation.

EXPECTED RESULTS

Improved firmness and fine-line reduction in 4 - 8 weeks after the last session; collagen continues building for 3 - 6 months.

TREATMENT DEPTH MAP

Indicative facial zoning
